CONCEPT NOTE

Introduction

The North-East Region (NER), comprising eight states viz. Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura, is still one of the less developed regions of India on many critical parameters in the fields of health, education, infrastructure, etc.

Exactly 25 years ago, in October 1996, the Union Government of India had announced "New initiatives for the North Eastern Region" which included a big policy decision to earmark at least 10% of Plan Budget(s) of the Central Ministries/Departments for the development of NE States. Since then **10% of the Annual Plan Budget of 53 Ministries of the Union Government is earmarked every year for spending in NER since 1998-99 even though the NER has 7.9% (2,62,179 sq. km out of 3287263 sq. km) of India's land mass and 3.76% (4.55 crore out of 121 crore) of population as per Census 2011.** In the Union Budget 2021-22, the allocation for North-eastern states, was increased to Rs 55,820 crore from Rs 41,764 crore in 2020-21.

Though endowed with rich natural resources NER faces many challenges, like poor infrastructure, poor connectivity, remoteness, hilly and difficult terrain, high operational costs, lack of employment opportunities, subsistence farming, resource constraints, long international borders and unrest etc.

India has introduced an important policy document i.e., New Education Policy 2020 which aims to transform education for realizing sustainable development goals (SDGs). The SDGs aim to achieve a sustainable and better future for all by 2030, including eradication of poverty, access to education, healthcare, reducing inequalities. It also includes goals that are directly connected to the biggest concern of the present times – climate change. The implementation of SDGs largely depends on localization of strategy to achieve it.

In India, NITI Aayog, which is main SDG coordination agency in the country, has created India's own model of 'SDG Localization'. The current event aims to explore challenges and alternative solutions for sustainable development of NER with special emphasis on role of education. With these thoughts in the mind, we at **Golden Signatures Research & Consulting** are organising **LEAD GLOBAL NORTH-EAST CONFERENCE 2021** as per details given below.

Exactly 25 years ago, in Oct 1996, the Govt of India had announced "New initiatives for the North East Region" which included a big policy decision to earmark at least 10% of Plan Budget(s) of the Central Ministries/Departs for the development of NE States. This is time to evaluate its impact in the NE region in the last 25 Years.
